

Becoming a Gamma Introducer

A simple way to increase your revenue stream working with one of the UK's leading providers

As a rapidly growing, technology-based provider of communications services to the UK business market, our services are designed to meet the increasingly complex requirements of the modern business.

We work both directly and through the channel to provide voice, mobile, data and cloud solutions to thousands of customers around the UK. We own our voice, data and mobile network, giving us more control over

the services we offer. We have access to a substantial direct and indirect salesforce, enabling us to continue expanding in the UK business market.

In addition to our fully-fledged channel partners we also have a number of introducer partners who recommend our services. This is a simple way to increase revenue without the need to employ the necessary expertise to sell, provision, bill and manage these services.

Why become a Gamma Introducer?

Often in life it pays to concentrate on what you are best at – in your case that's building your relationships and selling your services. Being a Gamma Introducer means that you can build a new revenue stream alongside this by recommending leading and reliable voice, mobile, data and cloud solutions from a UK premier provider, to your existing and prospective customers.

This opportunity allows you to simply make the introductions and enjoy the commission, while we do the rest - with no risk or commitment on your part!

- Pure referral scheme - no commitment
- Upfront or recurring commission payment options
- No billing headaches
- No support calls
- Have as much or as little control as you want
- Generate additional income by referring market-leading services
- Your team don't have to be skilled in telecoms - we do all the work
- We qualify, design and pitch the solutions
- No risk - we assume any credit risk
