

# Mobile

Business-class mobile  
with a focus on customer service.

# Gamma Mobile

## The business-only mobile network with first-class customer service

Gamma Mobile is a mobile service built exclusively for the UK business market, designed to ensure you get improved coverage for voice and data.

With Gamma Mobile your device will empower, not hinder your ability to conduct business.

We have travel bolt-ons that are as flexible as your schedule, a fixed/mobile convergence solution to meet your unified communication needs and you'll get a network provider with a focus on customer service excellence.

### What makes us different?

#### • We own the core systems within the mobile network

- We have all the control so you have all the flexibility
- It's easier to manage your mobiles
- You can make adds and changes more quickly

#### • Built for business

- Business-centric voicemail
- Great range of features designed for business
- Flexible tariffs that grow with your business

#### • Coverage

- 99% outdoor coverage, 98% indoor coverage and access to over 190 overseas countries

#### • Focus on customer service

- The same service excellence we already deliver for our other telecom services

#### • Fixed/mobile convergence

- Connect integrates our award-winning hosted phone system, Horizon, with the Gamma Mobile service
- Allows you to access a range of features any time, anywhere, regardless of device

## Business mobile service

### Built just for businesses

Because we only cater for the business market we understand the challenges you face and we're committed to delivering solutions, tariffs and support that help you focus on your business. We also understand that we need to deliver these solutions on the back of an extensive and reliable network, which is why we've built our own.

We're already one of the UK's largest providers of fixed voice services and applications for thousands of UK businesses, and you can rest assured we have applied the same expertise and experience into making our mobile network and support services business-class and to the highest reliability also.

### Coverage

Being contactable and able to work as normal when you are mobile is key to doing business well, so having the best business mobile network possible is paramount.

With access to the biggest data network available for business in the UK, working on the move won't be a problem.

### Focus on customer service

Gamma is committed to excellence in customer service and support - it's what makes us stand out from our competitors. So with Gamma Mobile you get the same first class service we already deliver for our other telecom services. Our UK support teams are available to handle your query, and we have experts in fault resolution and provisioning.

### Flexible tariffs

We offer a range of mobile tariffs including unlimited usage or simple pay-as-you-use.

Alongside a selection text and data bolt-ons we offer a comprehensive range of dynamic bolt-ons that, unlike traditional bolt-ons, there are no charges for them until they are used.

Our auto top-ups keep you in bundle by giving another bundle of usage once the initial allowance is exhausted, designed to help manage the cost of out of bundle spending. Data allowances can be used more efficiently with our Data Pooling bolt-on.

Alternatively, we can work with you to find a bespoke package that suits your needs.

### Flexible working

Gamma Mobile lets you access everything you need to keep working no matter where you are. Our services support access to email, calendar and tasks on the move as well as the internet and your company LAN.

### Business continuity

Unexpected events such as snow, floods, strike or roadworks need not disrupt business. Gamma Mobile can easily integrate with your fixed-line infrastructure to become the key form of communication in such an event.

### Business travel

Gamma Mobile can help you control your expenditure when travelling overseas. We have a range of Business Traveller bolt-ons to suit your schedule, reducing the risk of bill shock and unexpected data charges.

### Professional voicemail

Our reliable, flexible business voicemail platform is a cut above the standard residential voicemail that comes with other networks. Features include extended messages and storage, and flexible and tailored greeting options.

Working smarter, together.
